DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 10, line 3, "wiper arm" should be ---wiper blade--- since the wiper arm does not have another wiper arm at the other end thereof. In line 4, defining that there are "two" upstream and downstream wings appears inaccurate since there is only a single upstream and single downstream wing. In line 5, defining that the upper back extends towards the surface to be wiped appears inaccurate. It appears such should make reference to the upstream and downstream wings and not the upper back. In line 6, is appears improper to again define a downstream wing. The already defined downstream wing should be referenced. In line 7, there is no antecedent basis for "the inclined upstream wing". In line 9, there is no antecedent basis for "the action of a relative downwind direction". In line 11, there is no antecedent basis for "the curve".

Allowable Subject Matter

It appears that claims 10-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
